EDUCATION

Boston University

M.S. in Applied Business Analytics

Boston, MA

January 2026

University of Technology Sydney (UTS)

Master of Property Development and Project Management

Sydney, Australia

March 2024

TECHNICAL SKILLS

Programming & Data: Python, R, SQL (joins, CTEs, window functions), pandas, scikit-learn, Apache Spark
Analytics & BI: ETL, data cleaning, EDA, statistical modeling, machine learning, forecasting, NLP, Power BI, Tableau, Excel (PivotTables, VBA, Solver)
Databases & Tools: MySQL, SQLite, BigQuery, [AWS](#), Git, Jupyter, VS Code

PROFESSIONAL EXPERIENCE

Crew Scaler

Senior Analyst

Phoenix, AZ (Remote)

Apr 2026 - Present

- Conduct market research, competitive benchmarking, and partnership assessments for agentic AI education in Vietnam and Japan; synthesize findings into strategic recommendations.
- Build scenario-based financial models and benchmark community funding mechanisms; develop bilingual proposals and evidence trackers to support program planning and stakeholder decisions.
- Translate AI safety and governance research into learning resources and executive briefs; coordinate publication, website, and repository deliverables.
- Co-authored [AI-accelerated End-to-End Framework for Rapid Professional Upskilling](#), an arXiv preprint on generative AI, content verification, intelligent tutoring, and assessment design.

Boston University - Metropolitan College

Teaching Assistant - Python & SQL for Business Analytics

Boston, MA

Sep 2025 - Dec 2025

- Supported 30+ graduate students through Python/SQL office hours, assignment grading, and project reviews; provided rubric-based feedback on analytical accuracy, clarity, and business application.

Tin A Co., Ltd

Digital Marketing Analyst - Marketing Department

Ho Chi Minh City, Vietnam

Mar 2024 - Aug 2024

- Performed market-entry analysis in renewable energy and healthcare technology, improving targeting accuracy by 20% and supporting 5 new partnership contracts.
- Coordinated compliance and logistics for 7+ monthly import/export shipments.

Marriott Bonvoy - Renaissance Riverside Saigon

Data Analyst - Finance Department

Ho Chi Minh City, Vietnam

Mar 2022 - Jul 2023

- Developed cost-trend and scenario forecasting models to support pricing decisions, contributing to approximately 20% quarterly revenue growth.
- Validated financial and inventory data and automated 10+ recurring Excel reports, reducing stock discrepancies by 5% and saving 3 hours weekly.

SELECTED PROJECTS

Employability & Job Market Analytics [\(Link\)](#)

Sep 2025 - Dec 2025

- Developed Python/SQL ETL workflows with Lightcast and FRED data; applied natural language processing (NLP), Linear Regression, and Random Forest to analyze hiring, salaries, and skill demand.

Northwind Sales & Customer Analytics [\(Link\)](#)

May 2025 - Jul 2025

- Built SQLite/Python workflows with CTEs and window functions, interactive Plotly visualizations, four-cluster K-Means segmentation, and a 12-month ARIMA sales forecast.

Cruise Market & Customer Analytics [\(Link\)](#)

Jan 2025 - Mar 2025

- Contributed to a Python team study using port segmentation, conjoint analysis, logistic regression, and statistical hypothesis testing to inform product positioning and marketing recommendations.

Copenhagen Airbnb Pricing & Market Segmentation

Team Project

- Collaborated on an R analysis of 21,707 listings using data cleaning, log-linear regression, PCA, and K-Means; assessed classification baselines and class imbalance.

Microbrewery Investment & Operations Analysis

Team Project

- Evaluated a proposed investment using break-even analysis, contribution margins, linear programming, and financial scenarios to compare production and channel strategies.

BU Symposium on Entrepreneurship & Technology [\(Link\)](#)

Nov 2024 - Jan 2025

- Researched enterprise analytics architectures integrating machine learning, cloud computing, and blockchain for small and medium-sized enterprises.
