PROFESSIONAL EXPERIENCE

Crew Scaler

Senior Analyst

Phoenix, AZ (Remote)

Apr 2026 - Present

- Conduct business and research analysis for public-interest agentic AI programs, including AI education, safety, governance, and responsible adoption.
- Translate technical and policy research into decision-ready briefs, learning resources, program plans, and digital content for leadership and external stakeholders.
- Coordinate research, publication, website, repository, and program-delivery workstreams, tracking requirements and producing structured, executive-ready deliverables.

Boston University - Metropolitan College

Teaching Assistant - Python & SQL for Business Analytics

Boston, MA

Sep 2025 - Dec 2025

- Graded analytics assignments, supported lectures, office hours, and final projects, and improved deliverable clarity and consistency for 30+ students.

Tin A Co., Ltd

Digital Marketing Analyst - Marketing Department

Ho Chi Minh City, Vietnam

Mar 2024 - Aug 2024

- Led data-driven market-entry analysis across renewable energy and healthcare technology, improving targeting accuracy by 20% and supporting 5 new partnership contracts.
- Managed compliance and logistics for 7+ monthly import/export shipments, streamlining cross-border execution.

Marriott Bonvoy - Renaissance Riverside Saigon

Data Analyst - Finance Department

Ho Chi Minh City, Vietnam

Mar 2022 - Jul 2023

- Built cost-trend and scenario forecasting models that supported pricing decisions and contributed to approximately 20% quarterly revenue growth.
- Validated financial and inventory data and automated 10+ recurring Excel reports, reducing stock discrepancies by 5% and saving 3 hours weekly.

SELECTED PROJECTS

Employability & Job Market Analytics Using Big Data ([Link](#))

Sep 2025 - Dec 2025

- Built an end-to-end Python/SQL pipeline using Lightcast and FRED data, NLP, and ML models (Linear Regression and Random Forest; R-squared up to 0.44) to analyze U.S. hiring, salary, remote-work, and skill-gap trends.

Northwind Data Analysis ([Link](#))

May 2025 - Jul 2025

- Built reproducible SQL, pandas, and scikit-learn workflows to identify sales trends, customer segments, and inventory priorities and produce executive-ready visuals.

Cruise Industry Market Analysis ([Link](#))

Jan 2025 - Mar 2025

- Applied K-Means clustering, conjoint analysis, and A/B testing in Python to segment customers and prioritize features for luxury cruise positioning.

Boston University Symposium on Entrepreneurship & Technology ([Link](#))

Nov 2024 - Jan 2025

Enterprise Analytics System: Bridging Innovation and Technology for Next-Generation Entrepreneurship

- Researched AI-enabled enterprise analytics architectures combining machine learning, blockchain, and cloud systems for scalable SME innovation.
